- Ukrainian Borscht lös (handcrafted based on Ukrainian borscht ingredients. The Carpathian Burley and Oriental Crimean Basma tobacco varieties old oak barrels aged based. The "Ruthenia" font by Vasil Chebanik used).

* * *

We create our snus in accordance with Swedish recipes and standards. Tobacco is exclusively dried in the open air (air cured, under the influence of the natural environment, without being exposed to fire treatment). Snus is created during pasteurization in the oven at a temperature of ~100 degrees of Celsius for 24 hours.

Some of our mixtures before pasteurization we were aged in old oak barrels of sherry or brandy with the addition of a variety of syrups, honey, drinks, etc. Formally, this can be called fermentation, but it is necessary to create original aroma & flavor compositions. After this procedure, the aged mixture is dried in the open air (air cured), and then grinded and the pasteurization in the oven begins.

Now we offer loose snus produced by an excellent method of grinding tobacco, most popular and tasty according to the results of recent polls - "Combo Grinding" (long cut mixed with fine grinding). This is our own development, which allows us to achieve maximum effect for enjoying taste and strength. If you want another way of grinding, just tell us about it beforehand. We can produce exclusively the following grinding methods: pasteurized long cut or medium cut (coarse grinding) or short cut (fine grinding, almost powder/flour).

The price of one snus tin (50 g net wt.!) is 7.00 EUR excluding shipping costs. If you buy at the same time 10+1 or more tins - 6.50 EUR. Wholesale prices are valid with the simultaneous order of at least 50 tins - 6.00 EUR, at least 100 tins - 5.00 EUR. More tins are discussed separately. The final wholesale price will depend on how many tins you want to buy (we can discuss this further). The cost of snus made from Ukrainian raw materials for the period of experiment and testing costs 4.99 EUR per tin excluding shipping costs, discounts start after the 20th tins. Btw, we work with 100% prepayment. We accept: PayPal, Western Union, bank card & bank transfer and Bitcoin. To order, write to the hello@snus.biz

Since our snus is considered consumable with a limited expiration date, we do not offer returns. If you are unsure, we suggest you purchase a small amount first to give us a try. Moreover, we do not provide refunds at this time.

Worldwide shipping are possible in food friendly PVC cans of 50 grams and in bags aka "Jumbo Pack" of 250 and 500 grams. We prefer bags, but do not insist.

We are constantly searching and experimenting with new blends, so stay tuned for our news. Soon there will be new excellent aromas and flavors.

Keep on snusing, but snusing responsibly!
